Help Desk Call and Action Flow

🇬🇧 Incoming call: +44 7700 900123

Agent: "IT Help Desk, this is [Name]. How can I help you today?"

Caller: “I’m Dana Whitfield, VP of Finance. I lost my phone at the airport and need my MFA reset and a new phone number registered. The board meeting starts in 20 minutes and the CEO is waiting.”

open a ticket + collect details

Agent: "I understand you’re working against a tight deadline, especially with the board meeting coming up. I’ll open a ticket and check the recovery options available. Before we start, please, can I have you ID, your manager's name and date of birth?

Caller: Gives employee ID, manager's name and DOB.

Check internal records + red flags

Agent : Check records and account context

- Incoming number: 🇬🇧 +44 7700 900123
- HR contact number (on file): 🇺🇸 +1 512 555 0148
- Last sign-in: yesterday from Austin
- Calendar: in-person meetings in the Austin office today
- Account sensitivity: can approve payments and access the bank portal

Agent: Red flags noted

- Caller is using a UK number
- HR record shows +1 512 555 0148
- Dana signed in from Austin yesterday
- Dana has in person meetings in Austin today
- Sensitive finance account
- Caller is asking for MFA reset and new phone registration

Verify independently (offer a video call)

Agent: "Because this is a sensitive finance account, I need to complete an independent verification step. We can do this through a quick video call. Are you able to join a video call now?”

Caller: "My camera is broken." (declines video verification)

Offer an alternative (callback)

Agent: "I understand. If you can't join the video call, I’ll call you back on the number we have on file. Happy to proceed?"

Caller:"I'm in a taxi, just do it." (refuses the callback)

Escalate to IAM/Security Team

Agent: “I understand this is urgent, and I appreciate your patience. To protect your account, we need to complete an independent identity check before making any changes.
I'll document your request and refer it to our Security team for review. Any follow up will use your registered contact details. Do you have any questions?”

Caller: “Unbelievable. The CEO is waiting, and you're telling me there's nothing you can do? Forget it. I'll sort this out another way.”

Summarise next steps + close professionally

Agent:“I understand your frustration and I apologise.

Just to summarise, I've recorded your MFA recovery request. As identity verification is still incomplete, no changes have been made to your MFA or registered phone number.

Your ticket reference is [reference]. I'm referring the request to our Security team for review, including the urgency you've explained. Any follow up will take place through an approved contact channel.

Thank you for calling.”

Caller: “Fine.”

Document + complete the handoff for IAM/Security Team

Escalation Note

Caller claimed to be Dana Whitfield VP of Finance, and requested an MFA reset and registration of a new phone number, saying she had lost her phone at an airport.

- Incoming number: +44 7700 900123.
- HR number on file: +1 512 555 0148.
- Employee ID, manager’s name and date of birth matched the records, but independent identity verification was not completed.
- Caller declined a callback, stating, “I’m in a taxi, just do it.”
- She also declined video verification, stating, “My camera is broken.”
- Caller said a board meeting was starting in 20 minutes and the CEO was waiting.
- Account context shows a sign-in from Austin yesterday and in-person meetings scheduled in the Austin office today.
- Dana’s account has payment approval permissions and access to the bank portal.
- No authentication changes were made.
- Recovery remains on hold.

Referred to IAM or Security to review the request and confirm the next approved action.
